Automation & ETL: Power Query, Python Automation

Soft Skills: Problem-Solving, Critical Thinking, Communication Attention to Detail

PROJECTS

1. Supermarket Sales Forecast Dashboard (Power BI & SQL)

- **Built a Power BI dashboard with SQL-based data extraction to analyze sales trends and forecast 15-day future performance.**
- **Created KPIs and segmentation insights to help identify high-performing regions, categories, and customer segments.**

3. Call Center Performance Dashboard (Excel)

- **Developed an Excel dashboard using pivot tables to evaluate agent performance and customer satisfaction.**
- **Analyzed 1,000+ call records to identify patterns in call duration, ratings, and city-wise distribution.**

4. Telecom Customer Churn Analysis (Python)

- **Conducted EDA and logistic regression-based churn prediction, identifying key churn factors.**
- **Achieved strong predictive performance and recommended retention actions for high-risk users**

CERTIFICATIONS

- **GenAI Powered Data Analytics Job Simulation (TATA Forage)**
